Why create a dedicated Chrome profile?

In order to achieve the best user experience with RMEx and Google Chrome, we strongly recommend that all users create a dedicated Chrome profile for use with RMEx. By doing so, you will experience far fewer conflicts with other applications, saved passwords, upgrades etc.
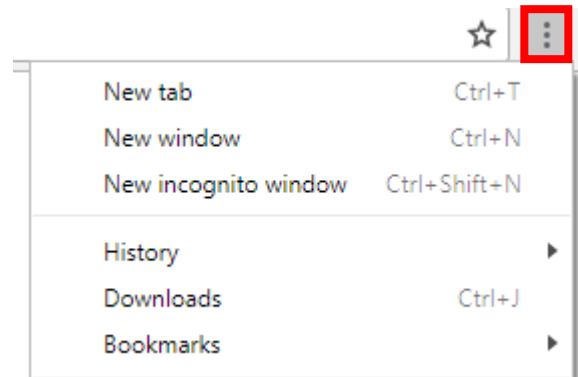

This is a one-time procedure. Once it's complete, you can have both your personal profile and your RMEx profile open at any time – it is very easy to switch between the two.

Please follow the instructions in this guide to create your profile today.
